## **In the Heart of Lucerne**

Life, sensation, culture: Lucerne – the ever-popular tourist destination featuring a unique quality of life – has so much to recommend it. The Hotel lies in the heart of the city and offers all the conveniences of urban living in a fascinating architectural setting. It's just a short walk from the lakeside promenade, the renowned KKL culture and convention centre, the city's trademark Chapel Bridge and many other sights and places of interest.

## **Design by Jean Nouvel**

The Hotel – the work of French Pritzker Prize-winning architect Jean Nouvel – is a unique establishment exuding charm and charisma. It offers spirituality and elegance in fusion of contemporary design. No two guest rooms are alike – and each has a tale to tell. They lean away from the familiar and the everyday. The art lies not so much in what is included but in what is left out. Guests are invited to abandon themselves to the inspirational poetry which characterises this sense-awakening boutique deluxe hotel – and to enjoy the genuine hospitality and luxury that this remarkable home-from-home offers.

## **Bam Bou – Fusion Cuisine**

Lucerne's most stylish restaurant celebrates by taking the stimulating interplay of Asian and French cuisine to the next level. East meets West – the Bam Bou's highly rated chefs constantly surprise and delight their clientele with the dishes they conjure up and so lovingly prepare. 14 Gault Millau points.

## **The Lounge – Urban Bar**

The Lounge is just like the rest of The Hotel – there's quite nothing like it! Platforms and podiums on different levels set the scene for its animated international clientele. It's all about seeing and being seen. Jean Nouvel has created an assured and uniquely stylish setting for the "lightness of being" and its electrifying moments.

## Comfort

The Hotel is both remarkable and unique, with no two guest rooms alike: floor plan, furnishing, decor or atmosphere – each is one of a kind. The fabulously large depictions of film scenes on the ceilings of the suites and studios create an exhilarating ambience – this interacts with the carefully selected amenities to create a wealth of space for the emotions. Writing tables, beds, bedside tables, sofas and chairs – all have been created by Jean Nouvel especially for The Hotel to add to the overall inspirational aesthetic experience.
